Gig Harbor, WA 98332

SUBJECT: RESTORATION PROJECT FOR CRESCENT CREEK AT CITY PARK

Dear Alliance Members:

We want to thank the Crescent Valley Alliance for volunteering their time to the City of Gig Harbor. The planting project at Crescent Creek on November 3rd was very successful and should make a significant impact toward the restoration and protection of the banks of the stream. In addition, the public viewing of the estuary has been improved with the addition of the two observation decks and wheelchair accessible trails.

We believe with the volunteer efforts of the public, we can keep the City of Gig Harbor as beautiful as possible and appreciate your contributions to habitat enhancement along Crescent Creek. We look forward to working with your organization again in the future.

Sincerely,

David Brereton
Interim Community Development Director
